

REMARKS

Claims 1-5, 15, 41-45 and 59-66 were pending in this application. New claims 67-70 were added. Support for the amendments to the claims and the new claims can be found in the application and claims as originally filed. No new matter has been added.

Response to Restriction Requirement

In response to the restriction requirement set forth in the Office Action mailed September 25, 2007, Applicant hereby elects claims Group I (Claims 1-5, 15, 41-45) for continued examination.

The Examiner has further required the election of individual species to which the invention will be limited if no generic claim is found allowable. Accordingly, applications elect the species of mammalian (claim 42) and bacteria (claim 43). In order to be fully responsive, Applicants elect the species of G (claim 44) despite this claim being cancelled. It is not believed that an election of species from claim 44 is necessary as this claim has been cancelled. Claims 1, 5, 15, 41-45 and new claims 67-70 read on the elected invention.
